20+ YEARS OF EXPERTISE

Pelagic EA Ltd provides a comprehensive range of professional services to marine industry, dockyards and civil engineering companies.

This includes Emergency Marine Response, Offshore Engineering & Commercial Diving Services. Using up-to-date commercial diving equipment, Pelagic EA's divers are experienced in a widerange of related skills.

Our diving specialists work mostly inland, in clear water to zero visibility, open seas to confined spaces.

OUR CORE VALUES

QUALITY

The quality of our services is our primary concern. All our interventions and operations are carried out by experienced professionals. These operations are carried out according to a strict quality control in order to guarantee a high level of service.

EXPERTISE

Three specialized organisations in Commercial Diving, Emergency Response, and Marine Services are merging to form a powerful entity. Their collective expertise spans underwater infrastructure maintenance, crisis management, and a wide range of marine solutions. This collaboration promises to revolutionize the maritime industry by delivering comprehensive and sustainable solutions.

SAFETY

The safety of our workforce is part of our commitment to the smooth running of our operations. Our know-how is applied in strict compliance with the safety rules applicable to hyperbaric work.

REACTIVITY

At Pelagic EA Ltd, customer contact is privileged and we try to respond to all requests made by email or telephone within 24 hours.
